Dust Suppression / Environmental Dust Control

P.D. Excavations is equipped with specialist equipment to suppress dust during earthworks and demolition jobs.

Our specialist equipment includes:

- Several **water carts** with batter spray bars (12000L—16000L).
- **Water cannons** / blowers

P. D. Excavations water cannons are ideal dust control measures for **Stockpiles, Bulk Excavations** and **Demolitions**. Our water cannons create a fine mist over a large area that captures airborne dust particles and drives them to the ground, helping you adhere to the toughest air quality standards

There are a number of benefits associated with effective dust control on your construction site, including:

- Better working conditions for staff
- Reduced risk of damage to property
- Knowledge of contribution to environment protection
- Reduction of health risks resulting from air pollution
- Less cleaning!
- Reduction in air pollution, and water pollution
